Interesting papers 11

Communities in cold regions enhance warming effects on soil respiration ([Karhu et al 2014](#)).

Road building strategies key to sustainable development? ([Laurance et al 2014](#))

Bacteria avoid growing until antibiotic concentrations are low ([Fridman et al 2014](#)).

Toenail dwelling microbes similar to those found in moist skin areas ([Oh et al 2014](#)).

You are responsible for the microbes in your home (who/what else would be???) ([Lax et al 2014](#)).

Applied evolution can save the world ([Carroll et al 2014](#)).

Greater stability of floral resources in more diverse communities ([Dorado & Vázquez 2014](#)).

Density dependence irrelevant for good predictions of population dynamics ([Wootton and Bell 2014](#)).

Plastic populations evolve more ([Schaum & Collins 2014](#))!

I'm a post-modernist pragmatist. You? ([Moon & Blackman 2014](#))

The bad side of corridors ([Haddad et al 2014](#)).

We need more individual level trait data ([Kraft et al 2014](#)), like this ([Kremer et al 2014](#)).

Easy size spectrum models, in R ([Scott et al 2014](#)).
